Big Boom in Mountain Land.

On account of the assurance of the construction of the seaboard Air Line from Detroit to the South Atlantic coast, there has developed a railroad boom in northeastern Kentucky. There are also to be extensions of the south and western branches of the C. & O. in that section, and from present indications, Letcher county is to have three roads within the next two years. The land boom in this section has become phenomenal. Land, considered almost valueless some months ago, is now held at \$30 and \$40 per acre.

John Wilmore, a merchant has been arrested at Middlesboro on the charge of killing his father several years ago.

Printers Ink Result.

There could be no better proof that printer's ink pays than the race for Representative. Mr. Pieratt was announced in The Herald and he swept the plater. The following shows for itself: Out of a total of 1024 votes Mr. Pieratt polled 750, Mr. Sebastian 163, and Mr. Rose 111. In Pieratt's precinct Pieratt got 82, Sebastian 2, and Rose 1; In Sebastian's precinct Pieratt got 55, Sebastian 17, and Rose 7; In Rose's precinct Pieratt got 40, Sebastian 0, and Rose 37. Thus it will be seen that Pieratt not only got a handsome vote in his own precinct but polled more votes in their own precincts than they themselves. Of course, Pieratt's popularity was a factor, but in accepting the nomination he said the announcement did the work.—Hazel Green Herald.

S. Stephens and C. M. of Estill county are transacting business in town today.

The Merry Huntsman.

Now the merry, merry huntsman goes to hunt in woodland ways; He is eager to be shooting and he cares not what he slays; Where he sees a moving object he takes sudden aim at it— And then steals up through the bushes to find out what he has hit. Oh, the merry, merry huntsman, what a happy soul is he. Stumbling through the tangled thickets, from all care for others free; Where he hears the slightest rustle he begins to blaze away. Thinking not of consequences, in his eagerness to slay.

Hear the merry, merry huntsman; how he makes the echoes ring As he seeks what he may slaughter on the ground and on the wing: He is adding to the orphans; widows wail to-day because He first shoots the moving object and then finds out what it was.

Bought Timber in Mississippi.

On last Sunday Morning Messrs. Floyd Day and John Day returned from Mississippi, where they purchased in the central portion of the State 16,000 acres of timber land, consisting of pine and poplar. Mr. S. P. Kerr, the flour maker of Winchester, was also in the deal. The purpose of the purchase is simply that of an investment, and not to establish lumber manufacturing plants, as some suppose. The price paid for this large body of land was \$80,000. Mr. Floyd Day expressed himself as greatly pleased with that country.—Jackson Hustler.

His Life In Peril.

"I just seemed to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "billionsness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.
